Project Name	Plasma Donor Application

### Creating an Account in SendGrid

The screenshot shows the SendGrid dashboard in a web browser. The browser's address bar displays the URL `app.sendgrid.com/guide?from=profile&integrate=true`. The dashboard features a left-hand navigation menu with the following items: Aswini Chittibabu (user profile), Dashboard, Email API, Marketing, Design Library, Stats, Activity, Suppressions, Settings, and Twilio SMS (marked as NEW). The main content area is titled "Welcome, Aswini!" and includes a sub-header "To get up and running quickly, please follow the steps outlined below." Below this, a blue banner reads "Send your first emails with Twilio SendGrid". Underneath the banner, a section titled "Send your first email" provides instructions: "Choose one of these common ways to send email. You can always explore the other options later." Two primary options are presented in white boxes: "Integrate using our Web API or SMTP Relay" (described as "Easily send API-driven email from your application.") and "Build and send using Marketing Campaigns" (described as "Build engaging email marketing campaigns that deliver results."). The Windows taskbar at the bottom shows the system clock at 14:37 on 05-11-2022, with a temperature of 32°C and a cloudy weather forecast.
